**Running time:** 90 mins  
**Year:** 2007  
**Country:** USA/Canada  
**Language:** English

## **Synopsis:**

YOUNG PEOPLE FUCKING is a smart comedy about five young couples with overly laid-back attitudes towards sex. Through the course of a single night, each of them will search for a fun and erotic experience but end up finding much more than they anticipated. Despite all their attempts to have seemingly straight-forward sex, devoid of any feelings and emotions, they quickly discover that there is no such thing as simply having 'just sex'.
